“ *Dear Dor, As so many others have and will say, you were the first person in Milwaukee who brought us into your home and asked us to think of you as family. Both your strength as well as your generosity were part of every conversation, and that will be the strength and skill I'll see alive as walk through my days. Thank you. We believe you've found your way home and, while we miss you, we think of all of the warm hugs that are greeting you there and frankly, they make us feel, well, good for the future. good-bye and thank you. For the family, we're sorry for your loss, but again, think she's shown us the way home.*
